Transitions can help your reader understand how your ideas fit together. Rather than jump from one thought to the next, you can use transitions to ease the reader along.

Examples

Addition: and, also, in addition to, further, furthermore, similarly, not only/but also, both/

and, moreover, either/or, another, like

Contrast: but, contrary to, yet, still, in opposition to, however, notwithstanding, although,

whereas, while neither/nor, on the other hand

Example: for example, that is

<u>Time</u>: when, as, already, then, after, afterwards

<u>Sequence</u>: next, then, soon, after, afterwards, following, since, first, second (etc.), finally

Result: thus, therefore, since, so, because, for
