

- University Affairs:
  - No report.
- Academic Affairs:
  - No report.
- Committee on Committees:
  - The Faculty Survey Report was compiled by the Committee on Committee from the Senate survey responses recently completed by the faculty. General discussion followed relating to the findings of the survey. Note that faculty salary, FES and IDEA, three related issues, group as the lowest ranked items among the fifty considered. The general sense was that the survey accurately identifies issues that should be addressed by next year's Senate. Not only the rankings but also the small standard deviation highlight these concerns. More focused discussion followed concerning the validity of using IDEA system data in salary promotion and tenure decisions.

Although the summarized findings are available on-line and to the general public, the comments are only available for review in the offices of Chair Edmonson, Chair-elect Loeffler, and Committee Chair Kohers.

- The Senate Election results were announced as follows:

Chad Hargrave	Arts & Sciences
Carol James	Arts & Sciences
Hee-jong Joo	Criminal Justice
Mark Frank	Business Administration
Donald Bumpass	Business Administration
Rebecca Bustamante	Education
Leonard Breen	Education
Donna Desforges	Humanities and Social Sciences
Tracy Steele	Humanities and Social Sciences
Erin Cassidy	Newton Grisham Library
Thomas Cox*	Humanities and Social Sciences

\*term opened through resignation, expiring in 2011

- Committee nominations report was submitted and was approved. It is also attached to the minutes.

Next meeting

Attachment 1:

Statistical information related to Senate discussions during the April 23<sup>rd</sup> Senate meeting subsequently provided by Dr. Crowson in a communication on Friday, April 24, 2009. The following comments and the table were obtained from this e-mail addressed to Drs. Edmonson and Loeffler.

I have attached the enrollment information compiled by Institutional Research as discussed yesterday in the Faculty Senate meeting.

After talking with Trevor Thorn, Director of Undergraduate Admissions, it was discovered around April 15, 2009 from a request by Dr. Deshaw that the incorrect information had been submitted to the College Board in relation to the HS quartile enrollment percentages for SHSU. The College Board data was used in the research referenced by Dr. Deshaw. At that time Mr. Thorn worked with the institutional research office on campus to re-submit the correct information. That information was re-
